SUMMARY

CS graduate with backend development experience using Python and Django. Completed a 6-month internship contributing to REST API development at a tech startup. Comfortable with SQL, Git, and Linux. Seeking a junior backend developer or software engineering role.

EDUCATION

BS Computer Science — LUMS, Lahore

2019 – 2023 | GPA: 3.2 / 4.0

- Relevant Coursework: Data Structures, Web Development, Database Systems, OOP, Computer Networks
- Final Year Project: Expense Tracking System using Django and PostgreSQL

SKILLS

Languages: Python, JavaScript, SQL, HTML, CSS

Frameworks: Django, Django REST Framework, Flask, React basic

Databases: MySQL, PostgreSQL

Tools: Git, Linux, Postman, VS Code

Other: REST APIs, OOP, Unit Testing, Agile

EXPERIENCE

Backend Developer Intern — TechVentures Pvt. Ltd., Lahore

July 2022 – December 2022

- Developed 6 REST API endpoints using Django REST Framework for a mobile app used by 2,000+ users.
- Designed and optimized MySQL schemas for 3 new features, reducing average query time by 20%.
- Migrated 4 legacy Flask endpoints to Django REST Framework as part of a backend modernization project.
- Wrote unit tests achieving 70% code coverage on assigned modules using Python unittest.
- Participated in daily standups and biweekly sprint reviews following Agile methodology.

PROJECTS

- Student Portal (Django, PostgreSQL, Bootstrap) — github.com/sarakhan/student-portal
- Built a university portal with course enrollment, grade viewing, and announcements for 3 user roles.
- Implemented Django role-based permissions for students, faculty, and admin. Deployed on Heroku with PostgreSQL.
- Added email notification system using Django's built-in email backend for course announcements.
- Expense Tracker REST API (Flask, MySQL, JWT) — github.com/sarakhan/expense-api
- Built a personal finance REST API with JWT authentication and monthly expense summaries grouped by category.
- Added date-range and category filters. Documented 15 endpoints with Postman collections.

CERTIFICATIONS

- Django REST Framework Complete Guide — Udemy, 2022
- SQL for Data Science — Coursera, 2021
